# EX60

## 60M HDMI EXTENDER SET

## Features

Supporting 1080p Full HD and Dolby Digital audio with IR extension for remote controls, the EX60 HDMI Extender allows HDMI signals to be extended up to 60 meters using a single CAT6 cable. The set consists of a sender module with 5V power supply and a receiver module, both equipped with female HDMI sockets for easy compatibility. It provides a cost-effective and reliable solution for extending HDMI signals to remote TVs, projectors, or other HDMI-enabled devices.
