GM2000

160 CM GOOSENECK MICROPHONE

Features

GM2000 model This unique gooseneck microphone is supplied with its original apparatus. It can be used in meeting rooms, conference halls, churches, private halls and schools for perfect sound. Thanks to the Phantom power on the microphone with many features, it is very suitable for large halls. It can rotate in all directions with a 160 cm gooseneck microphone with a movable head.
