DSM R

DIGITAL IR RECEIVER

Features

- Accommodates up to 4 / 8 / 12 / 16 different languages.
- Channel selector and headphone connector.
- Power on/off switch and volume level control.
- Powered by 2 × AA rechargeable batteries.
- No power consumption when headphone is disconnected.
- Aluminum carrying cases included for receivers.
- 2-digit LCD display with battery and reception status indication.

Technical Specifications

Feature	Specification
Receiving Sensitivity:	-102 dBm
Angle of Half Sensitivity:	± 50°
Headphone Output Level:	450 mVrms (maximum volume, 32 Ω headphone)
Headphone Output Frequency Range:	20 Hz – 12 kHz
Headphone Output Impedance:	32 Ω
S/N Ratio:	79 dB(A)
Supply Voltage:	1.8 – 3.6 V (nominal 2.4 V)
Power Consumption @ 2.4 V:	60 mA (working at maximum volume, 32 Ω headphone)
Power Consumption (Standby):	60 mA
Dimensions:	157 × 49 × 25 mm
N.W:	150 g
