TRUCK XXXL

DMX 4096 CHANNEL CONTROLLER

Features

According to the universal DMX512 protocol, the TRUCK XXXL scanner controller supports up to 4096 channels via Art-Net, providing reliable and flexible control for professional lighting systems. Its intuitive operation and built-in 10,2 inch capacitive LCD touch screen allow users to manage playbacks and parameters easily and efficiently. With advanced control functions and wireless connectivity, TRUCK XXXL is suitable for a wide range of applications including ballrooms, conference rooms, meetings, stadiums, theatres, taprooms, and large-scale shows.

Technical Specifications

Feature	Specification
DMX / Art-Net Output:	Provides 2 optically isolated outputs. A maximum of 4096 channels can be offered through the Art-Net function
