WS400 – WS400AN – WS400AMP

4 CHANNEL ANTENNA SPLITTER

Features

- Ultra-wide band 450–950 MHz.
- Compatible with up to 4 UHF true diversity receivers to one set of antenna.
- Adopts the latest wide dynamic range and low noise component.
- Advanced circuit design featuring very low inter-modulation distortion and eliminating spurious interference.
- BNC antenna connectors.
- Allows daisy-chain antenna dividers for more receivers.
- Active directional antenna design with selectable high / low gain.
- DC12V/1A power supply supports usage of four receivers simultaneously.

Technical Specifications

Feature	Specification
Frequency Range:	450–950 MHz
Output Gain:	10 dB ± 1 dB
IIP3:	+14 dBm
Noise Figure:	< 2 dB
Impedance:	50 Ω
Connector:	BNC
Antenna Power Supply:	8V / 100 mA DC
Output Power Supply:	Each Channel: 12V / 1000 mA DC
Power Supply:	110–240V AC 50/60 Hz
